Print Management & Cost Recovery

The solution for secure printing in your company.
An evolutionary leap in managing & controlling your print and copy costs.

let . work . flow

drive | print

Drive | Print enables secure document printing and simultaneously reduces the enterprise's overall print and copy costs. It is the reliable solution for authentication, pull printing, e-mail printing and print management.

Where high-performance connects with unequalled usability, both for user and administrator.

Reduced costs

- Avoidance of unnecessary printing
- Efficient distribution of the daily print volume
- Print policies for optimized usage of the printer fleet
- Controlled access to color printing & copying

Security

- Single Sign-On for all print & scan workflows
- Compliance with data protection and data protection policies
- Encrypted data transmission
- Administration of user rights

Productivity

- Access to print jobs on any print device at any location
- Efficient real-time fleet management
- Faster access to print jobs thanks to automatic forwarding
- Automatic cost assignment to cost centers or accounts

Business Efficiency

- Detailed reports regarding all aspects of MFP usage
- Automatic cost allocation for print & copy usage
- Simple implementation of print policies
- Control over consumable materials

Mobility & Flexibility

- E-mail printing for all common document formats
- Easy guest access to print services
- 100% web-based for simple management
- Modular structure for adjustment to customer requirements

Usability

- User-friendly interface
- Intuitive and quick installation
- Comprehensive, graphically displayed information
- Transparent and optimized print volume

Drive | Print Suite

- The complete Print Management Suite for your company
- Not only contains the Pull Printing Module but also a reporting tool with a diverse range of numeric and graphic evaluations – even for network printers
- Allows the creation of many different print rules as well as the monitoring of device functions and usage
- Can be combined with E-Mail Printing

Pull Printing

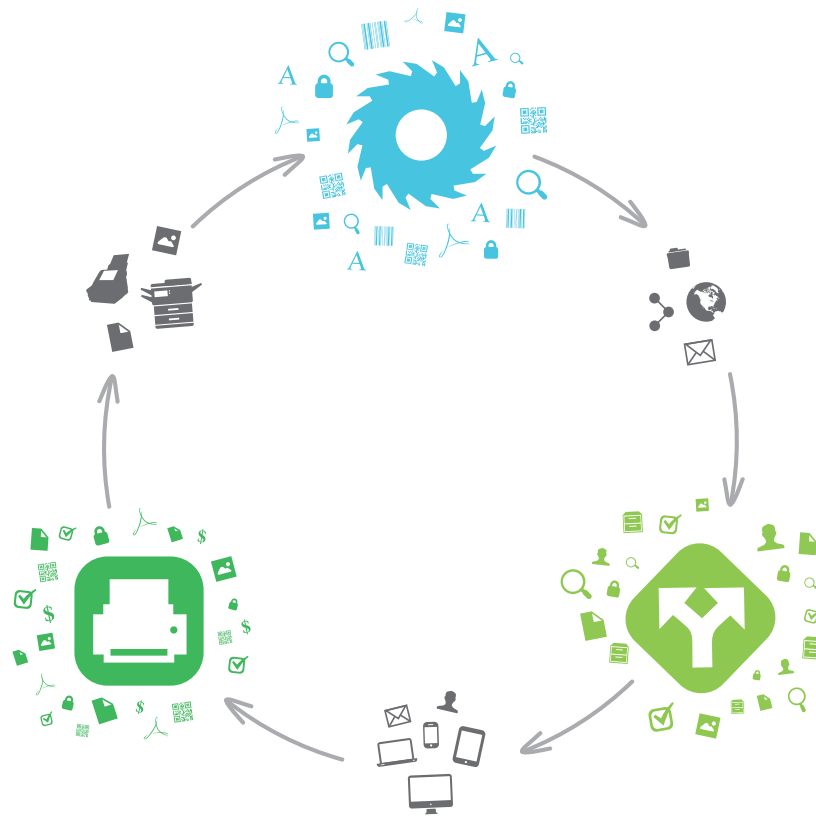

- Secure and confidential printing
- Release of submitted documents at any device after authentication
- Document selection from personal print queue
- Deletion of unnecessary pages directly at the device display using the preview function*

* function not available for all manufacturers

E-Mail Printing

- Document submission to personal print queue by e-mail
- Combinable with both Drive | Print Suite and Pull Printing
- Secure data transfer on the go
- Easy guest access to print services
- Connectable with various print applications via Drive | Print Generic Connector

The Complete Drive Ecosystem
